CONTENTS

- | | |
|---|--|
| | 103 Editorial |
| <i>Jose Millán, Philippe Godignon,
Amador Pérez-Tomás</i> | 107 Wide Band Gap Semiconductor Devices for Power Electronics
<i>original scientific paper</i> |
| <i>José Rebollo, Ignasi Cortés, Xavier
Perpiñà, José Millán</i> | 117 A Review of Si MOS-gated Power Switches and PiN Rectifiers
<i>original scientific paper</i> |
| <i>Giovanni Petrone, Giovanni
Spagnuolo, Massimo Vitelli</i> | 128 Distributed Maximum Power Point Tracking: Challenges and
Commercial Solutions
<i>original scientific paper</i> |
| <i>Doron Shmilovitz, Yoash Levron</i> | 142 Distributed Maximum Power Point Tracking in Photovoltaic
Systems – Emerging Architectures and Control Methods
<i>original scientific paper</i> |
| <i>Manuel Arias, Aitor Vázquez,
Javier Sebastián</i> | 156 An Overview of the AC-DC and DC-DC Converters for LED
Lighting Applications
<i>original scientific paper</i> |
| <i>Franc Mihalič</i> | 173 Improved EMC of Switched-Mode Power Converters with
Randomized Modulation
<i>original scientific paper</i> |
| <i>Carlos Restrepo, Tine Konjedic,
Javier Calvente, Roberto Giral</i> | 184 A Review of the Main Power Electronics' Advances in Order to
Ensure Efficient Operation and Durability of PEMFCs
<i>original scientific paper</i> |

Nenad Težak, Ivan Bahun, Ivan Petrović

199 Active Suppression of Low-frequency Interference Currents by Implementation of the High-performance Control System for the Grid-interfaced Converters
